

How do I create a bConnected Google Key for my @berkeley.edu account?

NOTE: Please keep this key for your records, as you will not be able to reference it at a later time.

Step	Procedure
1	Go to bconnected.berkeley.edu and Click the Account Information tab.

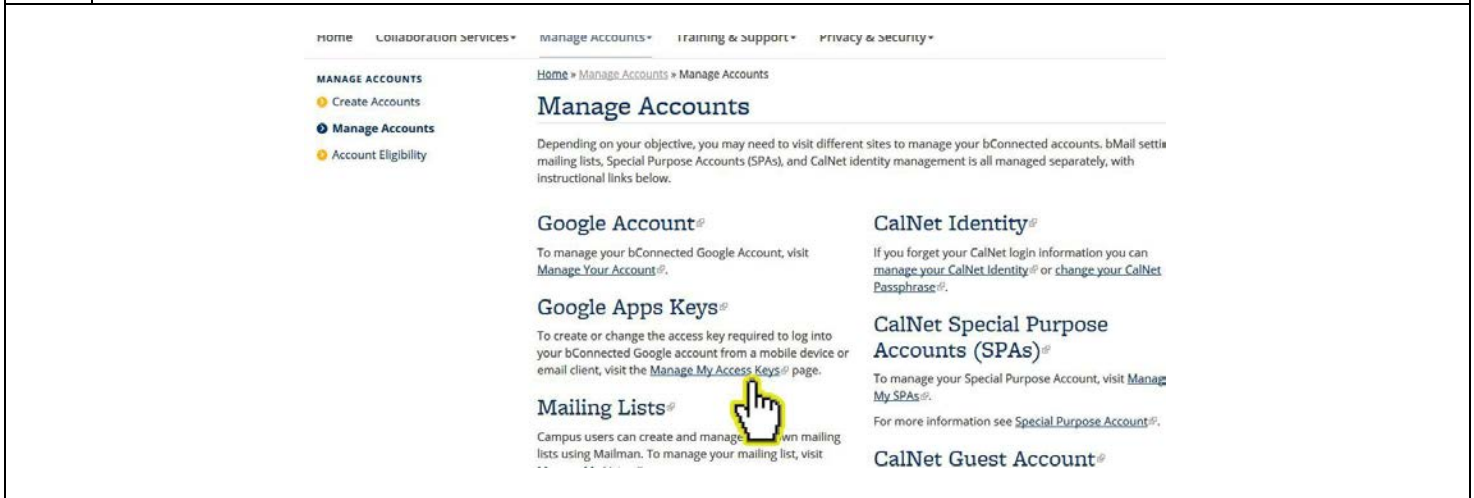

Step	Procedure
2	On the right side of the ensuing menu, click on the Manage Accounts link.

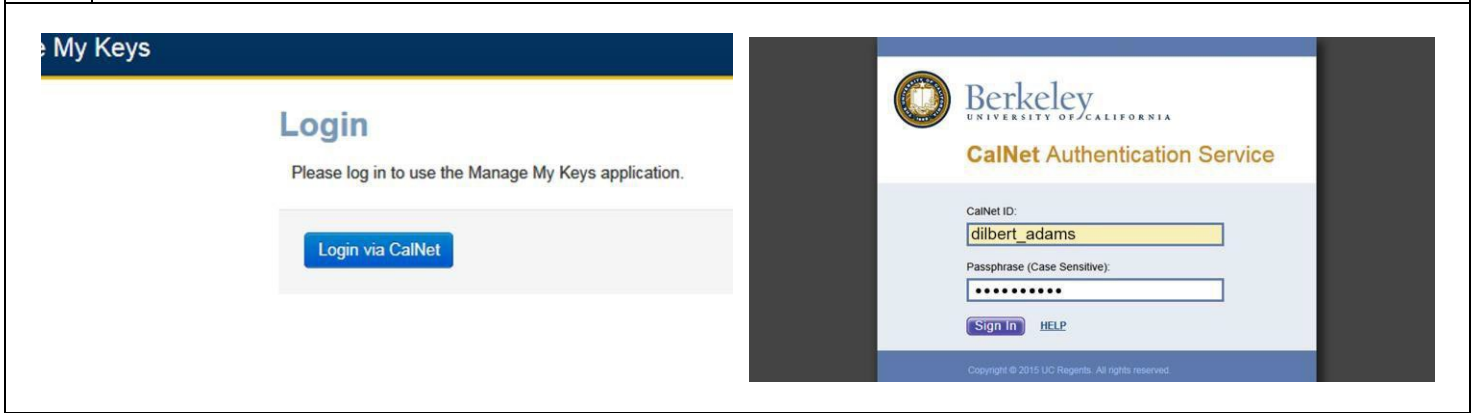

Step	Procedure
------	-----------

3	In the next page, under the Google Apps Keys section, click the Manage My Access Keys link.
----------	---

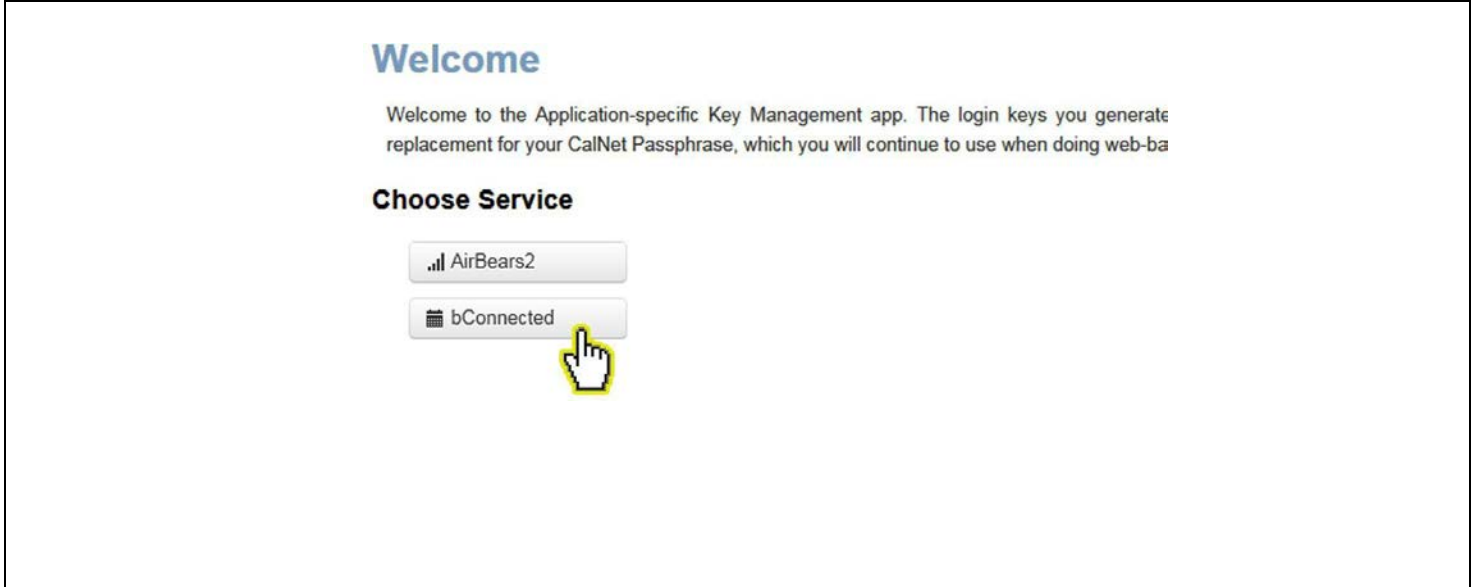

Step	Procedure
------	-----------

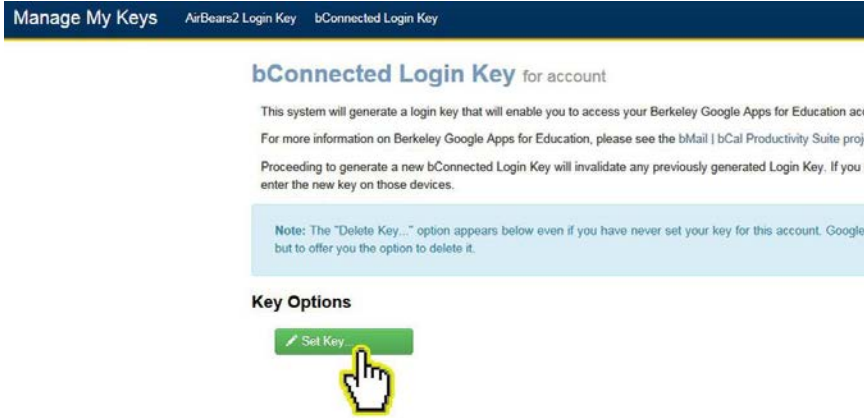

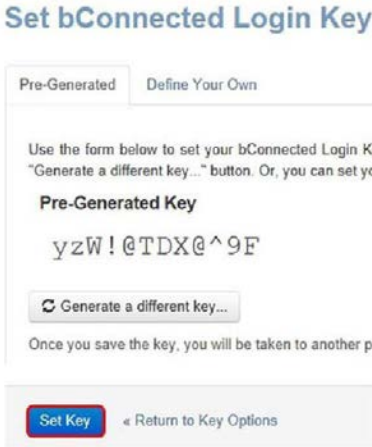

4	You will be asked to Login and taken to the CalNet Authentication page.
----------	--

Step	Procedure
------	-----------

5	Choose the bConnected button.
----------	--------------------------------------

Step	Procedure
6	Click on the Set Key option.
 <p>The screenshot shows the 'Manage My Keys' interface. At the top, there are tabs for 'AirBears2 Login Key' and 'bConnected Login Key'. The main heading is 'bConnected Login Key for account'. Below this, there is explanatory text and a note. A section titled 'Key Options' contains a green button with a checkmark and the text 'Set Key', which is being pointed to by a hand cursor.</p>	
Step	Procedure
7	You have the option to accept the system-generated key or define your own key . Once you've made your choice click Set Key .
 <p>The screenshot shows the 'Set bConnected Login Key' form. There are two tabs: 'Pre-Generated' and 'Define Your Own'. The 'Pre-Generated' tab is active. The form contains instructions, a generated key 'yzW!@TDX@^9F', a 'Generate a different key...' button, and a 'Set Key' button at the bottom. A red box highlights the 'Set Key' button.</p>	
Step	Procedure
8	You have successfully created your bConnected Google Key. Please keep a copy of the key for your records as you will not be able to reference it later on the bConnected site or through Haas' administrators.
