

How do I create a bConnected Google Key for my @berkeley.edu account?

NOTE: Please keep this key for your records, as you will not be able to reference it at a later time.

Step	Procedure
1	Go to bconnected.berkeley.edu and Click the Account Information tab.

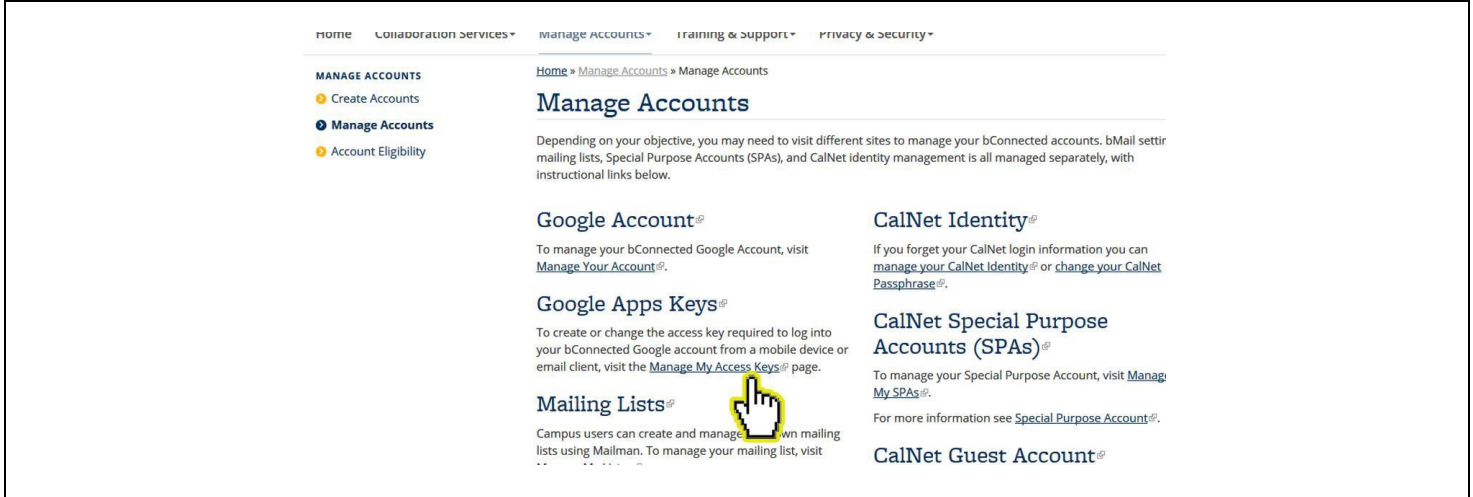

Step	Procedure
2	On the right side of the ensuing menu, click on the Manage Accounts link.

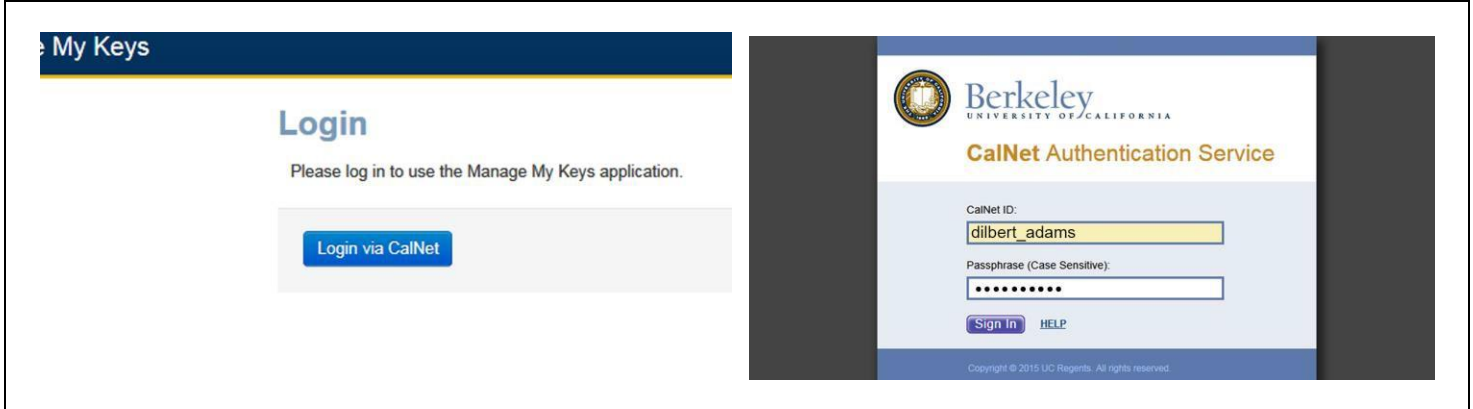

Step	Procedure
------	-----------

3	In the next page, under the Google Apps Keys section, click the Manage My Access Keys link.
----------	---

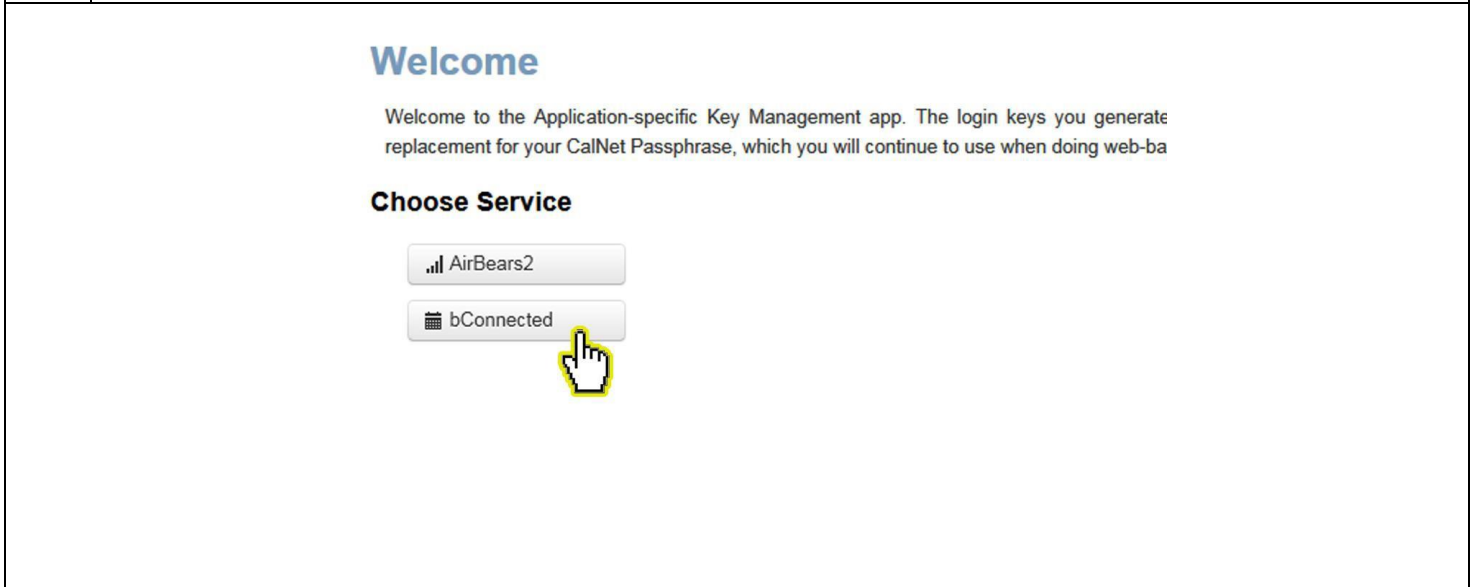

Step	Procedure
------	-----------

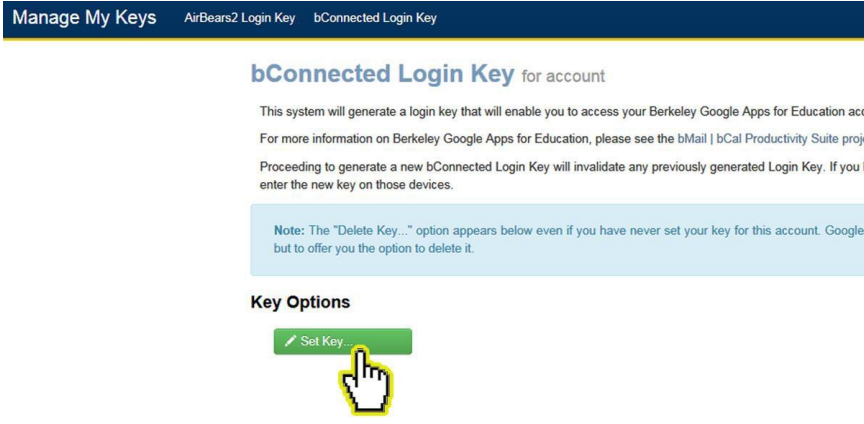

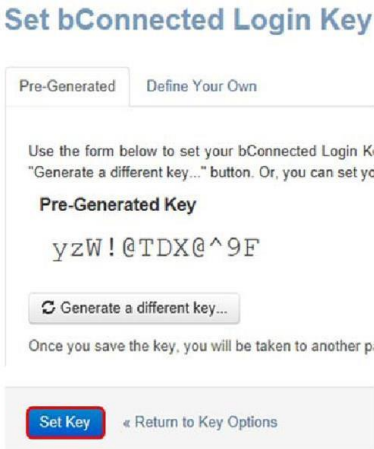

4	You will be asked to Login and taken to the CalNet Authentication page.
----------	--

Step	Procedure
------	-----------

5	Choose the bConnected button.
----------	--------------------------------------

Step	Procedure
6	Click on the Set Key option.
	 <p>The screenshot shows a navigation bar with 'Manage My Keys', 'AirBears2 Login Key', and 'bConnected Login Key'. Below is the 'bConnected Login Key' section for an account. It includes a note about key generation and a 'Key Options' section with a green 'Set Key...' button being clicked.</p>
Step	Procedure
7	You have the option to accept the system-generated key or define your own key . Once you've made your choice click Set Key .
	 <p>The screenshot shows the 'Set bConnected Login Key' form. It has two tabs: 'Pre-Generated' and 'Define Your Own'. The 'Pre-Generated' tab is active, showing a generated key 'yzW!@TDX@^9F' and a 'Generate a different key...' button. At the bottom, there is a 'Set Key' button and a link to 'Return to Key Options'.</p>
Step	Procedure
8	You have successfully created your bConnected Google Key. Please keep a copy of the key for your records as you will not be able to reference it later on the bConnected site or through Haas' administrators.
